

Les Transformations de LEspace Dans LEnseignement Secondaire

By Ali SELMI

Editions Universitaires Europeennes. Paperback. Condition: New. 148 pages. Dimensions: 8.7in. x 5.9in. x 0.3in. Le livre propose une analyse de l'évolution du corpus relatif aux transformations géométriques du plan et de l'espace enseignés au secondaire en Tunisie depuis l'indépendance cherchant de dessiner le cheminement de ces notions à travers les programmes et quelques manuels des différentes réformes. Il vise à rendre compte des raisons qui ont conduit à la suppression des transformations de l'espace. Comment peut-on qualifier cette suppression n'est-elle pas une question de vieillissement du curriculum (Chevallard, 2000), qui tend à privilégier les objets mathématiques: on conserve l'organe mais on a perdu les fonctions pour lesquelles ces organes furent un jour crés, ou pour lesquelles ils sont toujours là. Ce travail exploratoire n'est qu'un essai de réponse se plaçant dans le cadre des approches théoriques de la transposition didactique et de l'écologie des objets de savoir en étudiant la place et le rôle que jouent les transformations de l'espace dans le savoir mathématique et dans l'institution secondaire tunisienne. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

The most effective book I have ever read through. It is definitely simplistic but surprises in the fifty percent from the ebook. Your daily life span will probably be enhanced once you finish reading this ebook.

-- **Jules Dietrich V**

This written book is excellent. It really is really fascinating through studying period. You are going to like the way the writer wrote this publication.
