PRACTICAL MEASURES FOR THE PREVENTION OF TUBERCULOSIS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Practical Measures for the Prevention of Tuberculosis Registration will be objected to on the ground that it will impose additional suffering upon those who are already sorely afflicted. In a matter of such great importance to the well-being of the majority of those now living and of all of those yet to be born, the greatest good to the largest number ought to be our motto. Moreover, the registration of infectious cases of tuberculosis need inflict no suffering on anyone that would not be fully compensated for by a knowledge that near and dear ones can thereby be protected against the disease. Objections based upon commercial grounds have no foundation in fact. People are too familiar with tuberculosis to take fright at it, even when they believe it to be contagious. The registration of cases would have no depressing effect upon the community as a body, and whatever care-inspiring influence it might have upon individuals would be a benefit. Private business might in certain cases be injured because people would not buy at a place conducted by a tuberculous person but this would be a benefit to the community, and the individual concerned could easily rid himself of the injury by removing the attendant from a position in which he jeopardizes the health of others. Interference with the value of real estate could be prevented by government disinfection of infected houses.
