

Microsoft .NET Kick Start (Paperback)

By Hitesh Seth

Pearson Education (US), United States, 2003. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Microsoft Kick Start answers the essential questions "What is .NET?" and "What can it do for me?" from the developer's perspective. Expert author Hitesh Seth explains the platform's core components, development tools, and programming model so you'll be ready to build professional applications in no time. Microsoft Kick Start puts into perspective, explaining how .NET differs from other development platforms. You'll learn about the consistent programming model for Web, desktop, wireless, and speech applications. You'll also see how .NET is tightly integrated with XML and Web service technologies and standards. Hitesh Seth's insights and tips, along with dozens of practical examples that you can put to use immediately, will have you up and running at full speed in nothing flat. In this book, you'll: - Program with Visual Studio and your choice of language including C#, Visual Basic, Visual C++, Visual J#, and more - Understand the Common Language Runtime (CLR) - Work with the Framework class library - Develop Windows desktop applications, Web applications, Web services, wireless applications, and speech applications - Integrate and interoperate with existing COM and Win32 applications...
