FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Wheat Situation: June 1953 The June 15 decline carried the Kansas City price for No. 2 Hard Winter 54 cents below the 1953 loan rate, the farthest the price of this grade has ever been below the loan. The former low point was in 19h9, when the price fell to 35 cents below the loan on July 2. This would be comparable to about MS cents today if allowance is made for storage charges of about 13 cents, which are now assumed by farmers. Wheat prices are usually below the loan at this time of the year. His is due to several factors. The wheat support program operates through loans to eligible farmers rather than through open-market purchases. Many farmers are willing to sell below the loan at harvest time and forego the carrying charge, while other farmers are often willing to take less than the loan equivalent rather than to process the loan and find and provide the necessary storage space. Then there are always some quantities of wheat of low grade or high-moisture content which will not qualify for a loan.
