

## On the Dirichlet Problem for Equations in an Unbounded Domain

Filesize: 4.98 MB

### **Reviews**

*This ebook may be worth a go through, and superior to other. I could comprehend every thing out of this published e pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.*  
*(Prof. Damien Schuster PhD)*

LAP Lambert Academic Publishing Jan 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x4 mm. This item is printed on demand - Print on Demand Neuware - In the present book we study solvability and uniqueness of the solution to the Dirichlet problem for the  $p$ -Laplace equation and the equation of Helmholtz type. For the functions in Sobolev spaces of first order their boundary traces are characterized for the interior and exterior of the multidimensional paraboloid. Thus, necessary and sufficient conditions are obtained for solvability of the above Dirichlet problem inside and outside the paraboloid. The monograph is addressed to the students of higher courses and PhD students whose scientific interests lie in the function theory and the theory of boundary value problems for partial differential equations. 60 pp. Englisch.
